

Hingham Board of Health revised the Town's Recycling and Dumpster Regulations on March 10, 2015 to become effective June 1st 2015.

Beginning June 1st changes will include:

1. All food establishments and businesses that have a rubbish receptacle for public customers must also offer a marked recycling receptacle.
2. All commercial haulers must keep and provide records of recyclables collected during the quarters ending March 31, June 30, September 30th and December 31st. Copies of the weight slips documenting the quarterly tonnage data must be included in this report.
3. All businesses, houses of worship and charitable organizations that contract with a permitted hauler to remove rubbish and recyclables must apply annually for a dumpster permit. The permit must include a copy of the contract.
4. All businesses, houses of worship and charitable organizations that use the Hingham Transfer Station for disposal of their rubbish and recyclables must request a waiver from the annual dumpster permit. The waiver must include a copy of their Hingham Transfer Station Vehicular Permit.
5. All businesses, houses of worship and charitable organizations that use a municipal transfer station other than the Hingham Transfer Station must obtain a waiver from the annual dumpster permit. The applicant must demonstrate that they are still meeting the standards of the regulations.
6. The Town of Hingham may remove any dumpster or container from any property in Hingham if it is found to be without a permit or allowance from the Board. The owner/agent will be responsible for all fines, fees and costs associated with this removal.
